

MATIC TS

WHITEPAPER

WELCOME TO **MATICATS**

our goal of becoming a decentralized community focused meme project with true purpose. Our mission is to bring new cryptocurrency concepts to mainstream investors.

Unlike older, comparable projects, we introduce holders to next-generation concepts such as Staking & Farming, NFTs with utility, rewards and more.

MATICATS have made huge plans for an entire ecosystem built around the MCATS brand, including staking, yield farming and NFT staking as well as many more exciting utilities that rewards the holders of MCATS.

A BEP-20 (BSC) meme token that promotes healthy and widespread growth and usage through the Ecosystem built around the \$MCATS brand as well as decentralization of the project through specific rewards linked to users' transactions involving decentralized wallets and other utilities such as staking and farming.

Play to Win games will be at the heart of the ecosystem paired with regular tournament, winners of these tournaments will be paid in \$MCATS or MATIC tokens. You will need to be a holder of a set amount \$MCATS tokens to participate and win exclusive rewards and prizes.

MATICATS

NFT

NFTs with real utility. MATICATS is producing a set of unique NFTs that will have their own utility in the form of NFT staking. This will allow you to earn a variable amount of passive income just for holding \$MCATSNFTs.
